REMARKS

The Applicants have amended paragraph [0025] of the specification to correct the reference numeral for the term "holes 262." Figures 2A and 3 have been corrected to respectively add reference numeral 262 in Figure 2A and replace one of the duplicate numerals 308(c) with 308(e) in Figure 3. Replacement sheets are enclosed. The Applicants have amended claims 6-7, 16, and 20-22 to correct minor errors and to more clearly recite aspects of the invention.

The Applicants submit that the amendments were made for reasons unrelated to patentability and are supported by the specification and drawings. The Applicants further submit that no new matter has been entered. Consideration of this application and its swift passage to issue are earnestly solicited.

If the Examiner believes that any unresolved issues still exist, it is requested that the Examiner telephone Keith Taboada at (732) 530-9404 so that appropriate arrangements can be made for resolving such issues as expeditiously as possible.

Respectfully submitted,

April 21, 2005
